INTRODUCTION:

Individual entries.

**I follow you all the time
and copy your every move,
but you can't touch me or catch me.
What am I?**

This event will be a series of puzzles like crossword and riddles that would add the salt of fun and mystery to the fest. The event will be based on a collection of exciting challenges and puzzles that do not require any specific knowledge or experience so anyone can participate in it without restriction.

The event will consist of a total of 6 problems that will be given to the participants under a fixed time to solve. The order of attempting though depends on the participant and the event gives full flexibility to choose the questions of interest and flow of attempt. Each question will have same score so choosing an easier one first may seem to be a good option.

The event will be a limited time event that will be held in both online and offline medium but will have different time limits to compensate for the uneasiness of online medium. Time limits are as follows:

Online medium: 60 mins.

Offline medium: 45 mins.

At the end of the event the time limit of the offline exam will be scaled up to 60 minutes linearly to maintain uniformity.
